

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION
MANDATORY LANGUAGE - TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

HOLIDAY TRAV L PARK (PWS 2330022) has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During (52) 1st 6M2019, 2nd 6M2017, we did not monitor or test for LCR and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>LCR tap sampling 1st 6M2019</i>	<i>20 / 6 months</i>	<i>20 Should not have been a violation</i>	<i>June 1, 2019 - Sept 30, 2019 Collected on time</i>	<i>06/03/2019 07/19/2019</i>
<i>LCR tap sampling 2nd 6M2017</i>	<i>20 / 6 months</i>	<i>0</i>	<i>July 1, 2017 - Dec 31, 2017</i>	<i>01/09/2018</i>

What is being done? [corrective action] We collected 20 samples from registered sites in the correct compliance period for 1st 6M2019 and this should not have been a violation per TCEQ compliance officer. Now the 2nd 6M2017 was in violation and we collected a complete set of lead and copper samples on 01/09/2018 and were no longer in violation.

We are working to correct the problem. For more information, please contact:
